What does Cure Kids do? As Cure Kids biggest annual fundraising appeal, Red Nose Day helps raise significant funds to support child health research. Over the years, this funding has led to some big breakthroughs in child health, including new insights into child health conditions, better care for children who live with serious diseases, and the discovery of new ways to diagnose, treat, and cure kids.

They understand the cause, improve the care and discover the cure.

They tackle the biggest issues facing Kiwi children today. And these are just a few of the many reasons we need to support them! Red Nose Day helps Cure Kids invest in research across a wide range of child health conditions, trying to solve the big unanswered questions that are preventing kiwi children from living bright and healthy lives.

With your help this Red Nose Day, Cure Kids can continue to achieve better health outcomes for children in Aotearoa New Zealand, and around the world.
